

Alain JEAN-MARIE _____ Curriculum Vitæ, September 2017

Personal

Born: 24 October 1963, in Boulogne Billancourt (France),

Nationality: French.

Address:

Inria - Bt 5 - Université Montpellier
860 Rue Saint Priest
34095 Montpellier Cedex 5, France

Contact:

Office: (+33) 4 67 41 86 47, Fax: (+33) 4 67 41 85 00,

e-mail: Alain.Jean-Marie@inria.fr, web: www-sop.inria.fr/members/Alain.Jean-Marie

Current Position

- Senior researcher (Directeur de Recherche) at INRIA (National Institute of Research in Informatics and Automatics), France. Member and head of the NEO group.

Anterior Situations

- Full Professor of Computer Science, University of Montpellier 2 (10/98–09/03).
- Researcher in the MISTRAL group of INRIA-Sophia Antipolis (07/87–08/88 and 01/90–09/98); Senior researcher since 1996.
- Consultant in Modeling and Simulation of computer networks at the IBM Systems Integration Division, Gaithesburg, Maryland (09/88–08/89).
- Research Associate at the Systems Research Center, University of Maryland in College Park (09/88–12/89). Host: A.M. Makowski.

Education and Diplomas

1985–87 PhD Thesis in Computer Science from Paris XI University at Orsay. Thesis advisor: F. Baccelli (INRIA).

1980–85 M.S. degree in Mathematics and Computer Science (DEA), Paris XI University, Orsay.

Research Interests: main themes and sample topics

- Analysis of Stochastic Discrete Event Systems, Queuing Theory, Applied Probabilities

- Dynamical systems and optimization: Optimal Control and Game Theory
- Network Engineering, protocol design, measurements, simulation
- Applications to:
 - Performance and Optimization of Networks and Computer Systems (active queue management methods for the Internet, service differentiation, contents distribution networks, forward error correction codes, parallel and distributed systems...)
 - Design and optimization of network applications, contents delivery networks, distributed storage, power-line communication networks
 - Real-Time Scheduling, worst-case analysis of scheduling schemes, Network calculus, optimal online scheduling
 - Probabilistic Analysis of Algorithms and Data Structures in Computer Science and BioInformatics (*e.g.* election algorithms, packing algorithms, phylogenetic trees, probabilistic counting algorithms)
 - Economics (equilibria with conjectures, dynamic games, learning processes)
 - Economic Modeling, Natural Resource Management

Principal Recent Editorial and Administrative Activities

- Former editor, *RAIRO Operations Research*. Former editor, *Performance Evaluation*.
- Co-General Chair: SIGMETRICS/PERFORMANCE 2016. Program Committee: SIGMETRICS 2009, 2010, 2012 & 2013, INFOCOM 2007, ISCIS 2006, 2010–2013, 2015–2016, AINTEC 2006, EPEW 2006 & 2016, QEST 2006, 2008 & 2010, MAMA 2006–2017, VALUETOOLS 2012 (co-PC chair), ASIAN 2002 (PC chair)
- Co-head, Department of Informatics of the LIRMM Laboratory (80 staff, 80 PhD students, 2005–2007)
- Head of Inria’s MAESTRO team (2014–2016) and head of Inria’s NEO team (2017–).
- Member of recruiting committees: University of Avignon (2009), École Normale Supérieure (2010), Telecom ParisTech (2011, 2012), Inria junior researcher (CR2, Sophia Antipolis research center, president of the committee, 2013), University Paris-Est Créteil (2015).

Books and chapter of books
