Abstract The included contributions deal with the problem of modelling- and evaluation complexity.

*Deliverable D4 "Characteristic Equations" of Workpackage number one on Model Construction of the QMIPS-Project.

The QMIPS Project: The QMIPS project is a collaborative research project supported by the CEC as ESPRIT-BRA project no 7269. It is being carried out by the following organisations: CWI (Amsterdam), EHEI (University of Paris V), Imperial College (London), INRIA (Sophia-Antipolis), University of Erlangen, University of Newcastle, University of Torino and University of Zaragoza.
