CALL FOR PARTICIPATION

The Future Internet Assembly Working Group on
Research Roadmap for Future Internet
invites you to the

1st **Workshop on Research Roadmap for EU Framework Programme 8**

When? Thursday 31st March 2011, 10.00 AM-4.00pm

Where? European Commission, Beaulieu 25,
Room 0/S1 , Brussels

The EU Coordination Action Effectsplus and the Future Internet Assembly (FIA) are developing a roadmap for research into all aspects of the Future Internet. As part of this effort they are organising an Open Day / workshop on 31st March 2011. The workshop will also include the opportunity to review contributions received to date as well as to hear new contributions to be presented at the workshop.

Researchers working in the field of Future Internet are invited to contribute and present at the workshop, with the intention that they will shape the content and impact of the roadmap.

The workshop will center around a discussion of these questions, to which all will contribute:
- **What changes will occur in the next 10, 15, 20 years with regards to our technology needs?**
- **Which positive outcomes can be brought about by the use of technology?**
- **What are the difficult problems? How can we realise our vision of Future Internet technology?**
- **How can we tackle these problems today and tomorrow?**

FUTURE INTERNET ASSEMBLY
